

# Start Small Dream Big

PRESIDENT'S  
CHALLENGE  
2023

# A Hero for Everyone

By Little Atlas Preschool

# Overview of Project & Key Learning Points

We wanted to instill kindness, responsibility and philanthropy in our little innovators through the SSDB 2023. We believe that no matter how small or young they are, children are capable of extending a helping hand to the world around them.

Little Atlas Preschool partnered with multiple community partners and parents during the project, including the Northeast Community Development Council, Singapore Red Cross Society, Ling Kwang Home for Seniors and parental resources.

Little Atlas Preschool even received a recognition award from the Northeast CDC for our children and parents' active participation in several community initiatives! We are grateful and honoured!

# Execution of The Project

We introduced the Hero Card! Featuring a combination of school- and home-based activities, children must aim to complete tasks under three categories.

Captain Love cares for the community and encourages children to participate in charity work that serves other people within our society – such as low-income families, the elderly, our neighbours and our own family members!

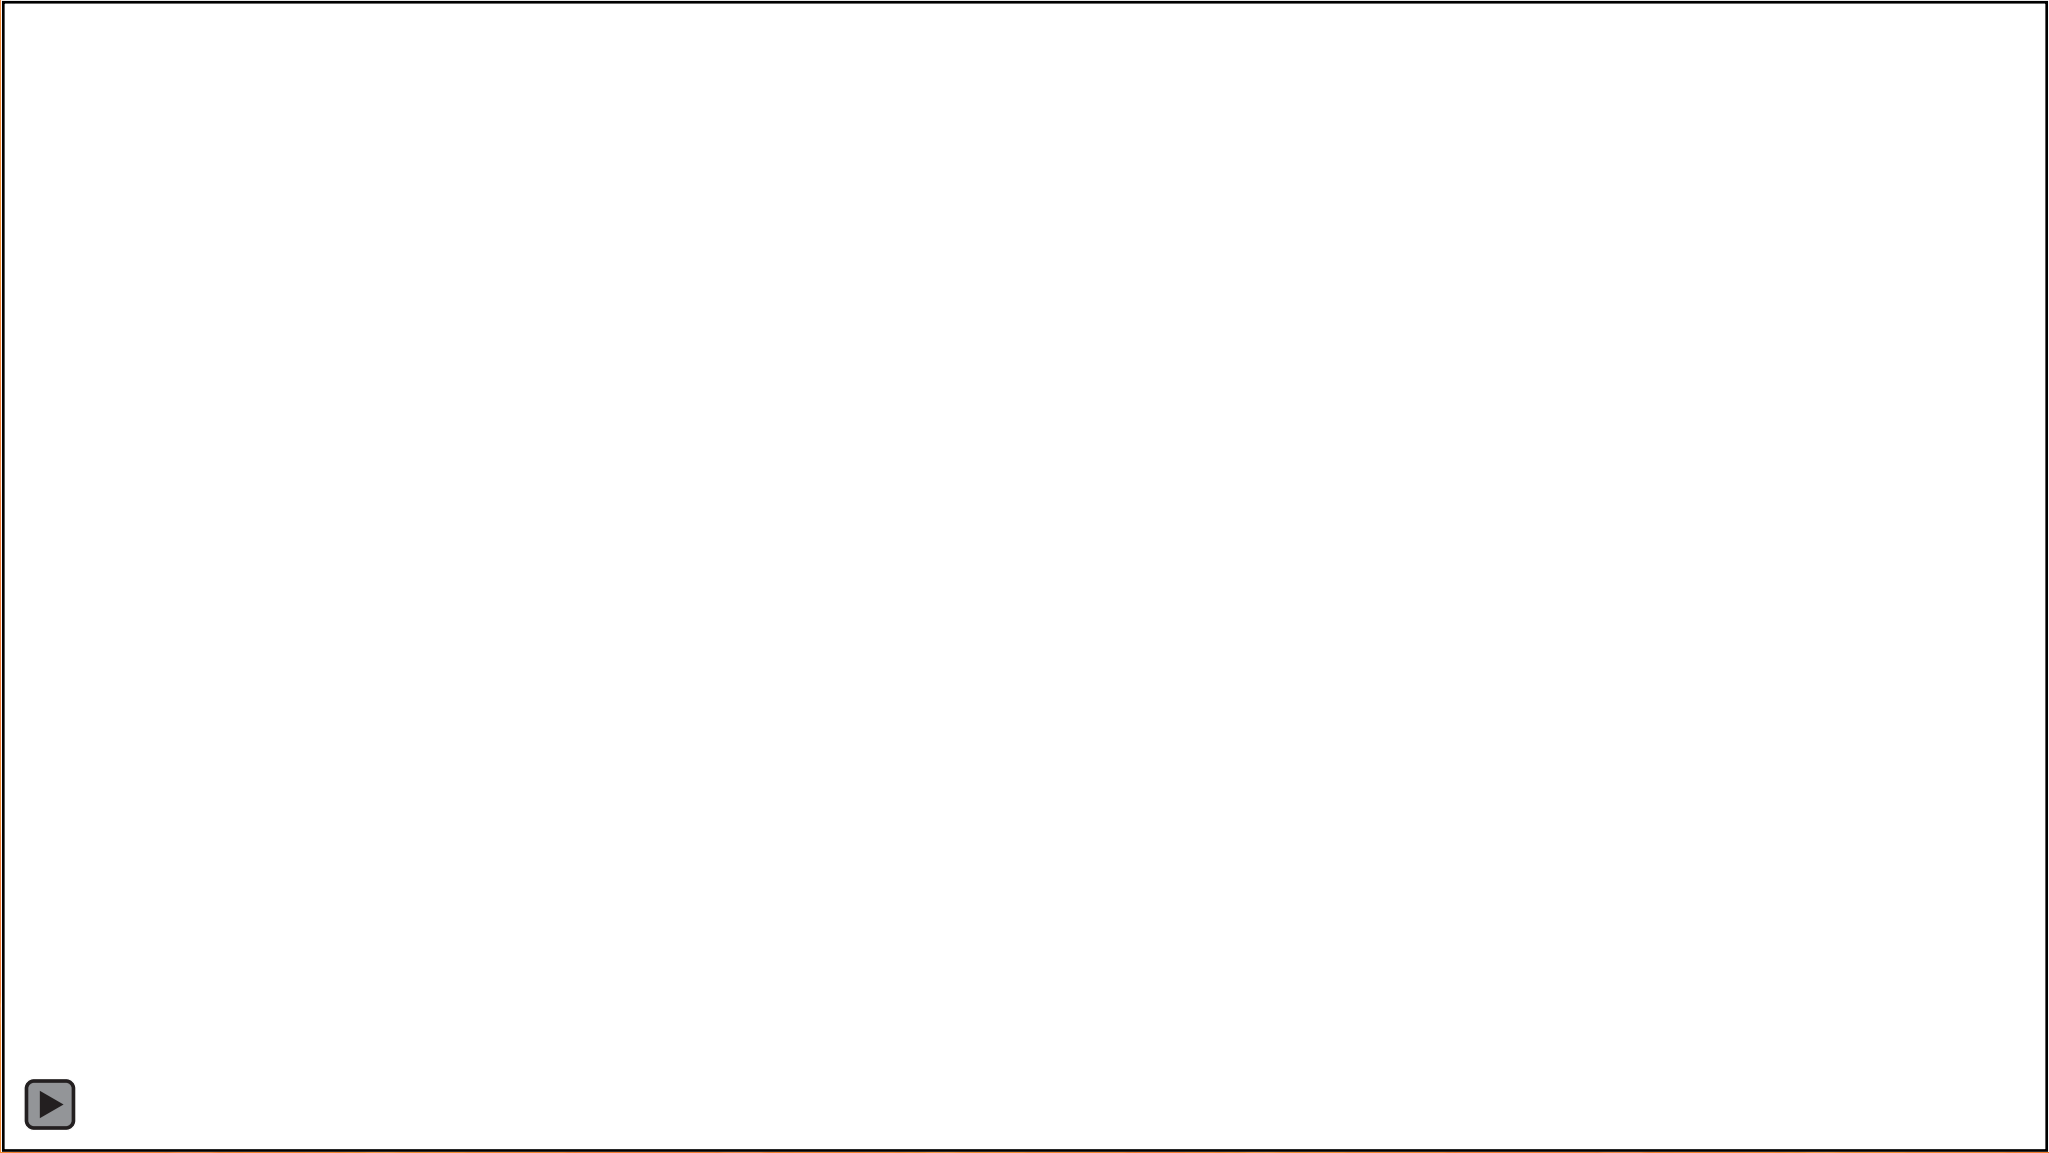

Wonder Green conserves our environment by advocating for green actions, raising awareness, reducing our carbon footprints, as well as recycling.

Life Boy takes great care of other living things such as animals and pets, plants, and of course, a friend.

Collaboration with Red Cross Junior

Parental Involvement

# Execution of The Project

# Overview of Project & Key Learning Points

## Our Key Learning Points:

Children will be able to make real impact on their immediate environment and others by demonstrating acts of kindness, inclusivity and civic-mindedness.

Children will be able to recognise what they can do or not do to contribute towards the community, and by doing so, recognise their own unique qualities and abilities.

Children will be able to participate actively in community engagements and collaborate with their parents to address shared challenges in Singapore's society.
